DESIGN

Optisch und haptisch bietet der 3-D-Effekt des Gewebes ein besonderes Erlebnis. Die CBA-Faser (Clear Brilliant Acrylic) steht für ausgezeichnete Eigenschaften und ist im Gegensatz zu herkömmlichen Materialien besonders glatt. Daraus entsteht ein Stoff mit extrem dichter Oberfläche, der besonders schmutzabweisend ist und dessen Farben dadurch heller und länger leuchten. Der Stoff ist zudem besonders wasserabweisend und bietet einen sehr hohen UV-Schutz.

Um das Besondere noch mehr zu unterstreichen, wurden 10 verschiedene EXCLUSIVE Dessins entwickelt, welche ausschliesslich bei STOBAG erhältlich sind und einen ästhetischen Hochgenuss bieten.

📏 Sämtliche Rollenbreiten betragen 120 cm.
